SEVEN STEPS TO STRENGTHEN A MARRIAGE

HOW A FAMILY TAKES THESE STEPS

1. One should have a clear goal in mind, a goal of building a Celestial marriage and gaining eternal life.
2. Try to remember that our Heavenly Father must be included in the partnership and spend time with the Father in prayer and seek his help.
3. Acknowledge the reality that Satan is the enemy and one must be on constant alert and look out for his sabotage.
4. When as husband and wife come to a tough moment, to remember that God is the best friend and he would not allow anything to hurt us.
5. To remember always that the family is growing together towards perfection and so remember that each one is important and each strive to complement the other by keeping God's commandments.
6. To accept the reality that difference of opinion occurs even in the best of marriages: yet one respects the opinions and build the relationship beyond.
7. To have honest and charitable communication to stabilise the marriage and work towards a harmony that should be built.

The Secret is to serve God and each other in marriage for unity, one-ness and self-development. The more one serves the greater the spiritual growth. THE HOLY SPIRIT OF GOD IS OUR STRENGTH.
